Forecast for Tuesday 13 Jul 2021

Weather: A cloudy start with a little light rain, dying out through the morning with some sunny spells developing. Then a bright afternoon with warm spells of sunshine and perhaps just the odd light shower.

Chance of cloud free mountain/hill tops above 800m: Little chance at first but improving to 60% by midday and then 90% in the afternoon.

Visibility: Periods or persistent cloud above 300-450m becoming occasional above 600m through the morning with only small amounts of cloud below the summits by mid-afternoon. Otherwise visibility very good, with good panoramic views of surrounding fells and lakes developing, but several kilometres in rain and perhaps briefly in any afternoon showers.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Valley temperatures rising to around 23 Celsius in the afternoon.

Forecast for Wednesday 14 Jul 2021

Weather: Dry with long clear or sunny spells, risk of sunburn and dehydration in the strong sunshine.

Maximum wind: Westerly or northwesterly 10-15mph.

Chance of cloud free mountain/hill tops above 800m: Around 75% at first in west, otherwise close to 100% with little or no cloud below the summits. Chances fall across western fells in the evening.

Visibility: Occasional cloud above 300-450m at first over western fells and again in evening. Otherwise visibility very good with good panoramic views of surrounding fells and lakes.

Temperature: **Valleys:** Around 11 or 12 Celsius at dawn rising to plus 22 or 23 Celsius by day
At 800m: Around plus 11 Celsius
Freezing level: Well above the summits.
